Section 1: PROMPT

Create a one-page professional resume using the following details:

Name: Hans Yuri Ingente
Email: hingente@addu.edu.ph
Phone: 09273234816

Objective:
Mechanical Engineering student driven to find opportunities where I can use my technical drawing and AutoCAD abilities, while building practical experience in engineering and design.

Education:

Bachelor of Science in Mechanical Engineering
Ateneo de Davao University
2024 – Present

Senior High (STEM Track)
Davao Doctor College Inc.
2022 - 2024

Davao City National High School
2019-2022

Skills:
- Autocad
- Driving
- Detail Oriented
- Team Collaboration

Projects/Experience:
- Completed Technical Drawing Course
- TESDA Driving School Completion
- Produced basic AutoCAD designs and layouts
- Performed machining of basic objects in a machine shop setting
- Applied drafting principles in school-based technical projects

Formatting Instruction:
- Keep it one page only
- Use a modern, minimalist design
- Emphasize readability and professionalism
- Use bold headings and consistent spacing
- Make it suitable for internship or entry-level job applications

Section 2: LLM Outputs
LLM #1 - Gemini Ai

Email: hingente@addu.edu.ph **Phone:** 09273234816 **Location:** Davao City, Philippines

PROFESSIONAL OBJECTIVE

Mechanical Engineering student driven to find opportunities where I can use my technical drawing and AutoCAD abilities, while building practical experience in engineering and design.

EDUCATION

Bachelor of Science in Mechanical Engineering **2024 – Present**
Ateneo de Davao University

Senior High School (STEM Track) **2022 – 2024**
Davao Doctor College Inc.

Junior High School **2019 – 2022**
Davao City National High School

TECHNICAL PROJECTS & EXPERIENCE

- **AutoCAD Design:** Produced basic AutoCAD designs and layouts, focusing on accuracy and adherence to engineering standards.
- **Machine Shop Operations:** Performed machining of basic objects in a machine shop setting, gaining hands-on experience with fabrication tools.
- **Technical Drafting:** Applied core drafting principles in school-based technical projects and completed a comprehensive Technical Drawing Course.
- **Drafting Implementation:** Integrated theoretical knowledge into practical school projects, ensuring precise measurements and structural integrity.

SKILLS & CERTIFICATIONS

Technical Skills:

- AutoCAD & Technical Drawing
- Machine Shop Familiarity
- Drafting Principles

Soft Skills & Others:

- Detail Oriented & Analytical
- Team Collaboration
- TESDA Driving School Completion

LLM #2 - Claude Ai

HANS YURI INGENTE

hingente@addu.edu.ph | 0927 323 4816

OBJECTIVE

Motivated Mechanical Engineering student seeking opportunities to apply technical drawing and AutoCAD skills while gaining hands-on experience in engineering and design.

EDUCATION

Bachelor of Science in Mechanical Engineering – Ateneo de Davao University (2024 – Present)

Senior High School (STEM Track) – Davao Doctor College Inc. (2022 – 2024)

Davao City National High School (2019 – 2022)

SKILLS

AutoCAD

Driving

Detail-Oriented

Team Collaboration

PROJECTS & EXPERIENCE

Completed a Technical Drawing course with emphasis on precision and layout design

Finished TESDA Driving School training

Created basic AutoCAD designs and technical layouts

Performed machining of simple objects in a machine shop environment

Applied drafting principles in various school-based engineering projects

Section #3 - Comparison Table

Criteria	LLM #1	LLM #2
Structure	More structured and clearly arranged, with added sections such as Certifications and Achievements, and experience grouped into distinct categories.	Organized into clear sections (Objective, Education, Skills, Projects) with a neat structure and consistent, balanced formatting.
Clarity	More detailed but slightly longer, reducing quick readability.	Quick to scan because of short bullet points and concise wording.
Formatting	Simple Word-style formatting with no clear visual hierarchy or design elements.	Clean, professional layout with good spacing, alignment, and use of columns, giving strong visual appeal.
Overall Quality	More detailed and content-rich, but with less focus on visual presentation.	Visually appealing

Section #4 - Reflection

Between the two LLMs I used, Gemini AI performed better than ChatGPT because its output was easier to read and understand. The response from Gemini was more organized and visually clear, allowing me to quickly identify and remember the key details. In contrast, ChatGPT produced a more text-heavy resume that contained similar information but was harder to scan and less straightforward to follow. Because of this, I preferred Gemini AI since it presented the content in a cleaner and more structured format. I also noticed that the main differences between the two were mostly in how the information was presented rather than in the content itself.

In improving my final resume, I focused on strengthening the structure and refining the details to make it more professional. I organized the information properly, removed unnecessary words, and ensured that everything was clear and easy to read.

From this activity, I learned that prompt quality is very important in determining the output of AI tools. A clear and specific prompt leads to better and more useful results. I also realized that understanding what you want is necessary to properly guide the AI. Overall, even small changes in prompting can significantly affect the final output.

Section #5 Refined Output

HANS YURI INGENTE

09273234816 • hingente@addu.edu.ph • Davao City, Philippines

PROFESSIONAL OBJECTIVE

Detail-oriented Mechanical Engineering student with a strong foundation in technical drafting and AutoCAD. Seeking to leverage academic training and hands-on machining experience in a professional internship or entry-level design role.

EDUCATION

Ateneo de Davao University *2024 – Present*
Bachelor of Science in Mechanical Engineering

Davao Doctor College Inc. *2022 – 2024*
Senior High School – STEM Track

Davao City National High School *2019 – 2022*
Junior High School

TECHNICAL PROJECTS & EXPERIENCE

Computer-Aided Design (AutoCAD)

- Developed precise 2D engineering layouts and basic component designs following industry-standard drafting protocols.
- Utilized AutoCAD to translate conceptual sketches into digital technical drawings with high accuracy.

Machine Shop & Fabrication

- Performed manual machining operations for mechanical parts, ensuring adherence to tight tolerances and design specifications.
- Applied rigorous safety protocols and operational knowledge of machine shop equipment to complete fabrication tasks.

Drafting & Technical Drawing

- Mastered orthographic projections and isometric views through a formal Technical Drawing course and applied them to complex school-based projects.

SKILLS & CERTIFICATIONS

Technical Skills:

- AutoCAD (2D Design)
- Technical Drafting
- Machine Shop Operations
- Blueprint Interpretation

Professional & Other:

- Analytical Problem Solving
- Detail-Oriented & Precise
- Team Collaboration
- TESDA Driving Certification
